April 2024

[www.jordansvillage.co.uk](http://www.jordansvillage.co.uk)

Welcome to the April edition of your community newsletter!

This month [Jordans Village Hall Trust](#) will be revealing the designs they've been working on for a new Village Hall. Residents are invited to their presentation at 2pm on Saturday 20th April. This is big news, so make a note of the date in your diary!

I could fill every issue with articles about the fascinating people who have lived and still do live here in Jordans! For example, did you know that Sir Jesse Boot (who founded Boots the Chemist) loaned money to help build the village, and later donated Crutches Woods to JVL together with Henry Cadbury? This month I thought I'd highlight two people in particular, in what could become a running series which I've entitled "[Did You Know?](#)". If there are any other Jordans residents young or old, past or present who have lead an interesting life or made an achievement of some kind that you think others might not know about, please get in touch and I will try to continue this series in future issues.

## Pictures of the Month

Mary Bellamy (above) and Jeff Holdsworth (below) both captured the one sunny day of Spring we've had between what seems like weeks of rain! But when the sun did

poke his head out, the daffodils and cherry blossom at Cherry Tree Corner looked spectacular. The tulips and other planting that was done last year down the left side of the plot is starting to come through too, so take a look next time you're passing and see what comes up!

**Below:** Who can forget this amazing sight on the Green, 8 years ago today?!

## The Jolly Quaker

**The Jolly Quaker is back on Friday, 5th April and we'll have paella thanks to a visit from the Valencia Supper Club! Juan's paella was a big hit last year**

and he'll be back in the village hall car park **from 7 pm** on Friday 5th!

Pre-order your paella (PREFERRED!) or just order on the night. Please note that due to the nature of freshly-made paella – when it's gone, it's gone! So do come early or pre-order!

Here are 3 steps to a delicious meal in fun surroundings:

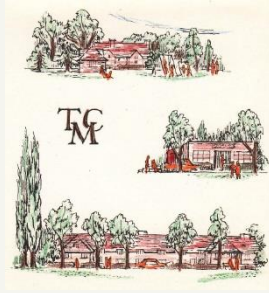

1. Choose chicken (£9), seafood (£10) or vegan (£8) paella.
2. Pre-order your paella by email: [valenciasupperclub@gmail.com](mailto:valenciasupperclub@gmail.com). Note: If you require a paella for 6 or more people served in a large pan, this must be ordered at least 48 hours in advance. And all vegan paella portions must be ordered in advance! Please note that all versions of paella are gluten and dairy free.
3. Come to the Jordans Village Hall car park from 7 pm on Friday, April 5 to pick up your pre-ordered paella bowls – or just order on the night!

Pay with card or cash, and enjoy your paella with some fresh Rebellion beer or lovely Spanish wine from The Jolly Quaker.

See you on 5th April!

## TMC NEWS

We would like to welcome Chisa Newton, who has joined the TMC following the AGM.

Our official team now has seven members - Pat Holdsworth, Dave Allen, Nat Skidmore, Richard Key, Andrew Holdsworth, Phil Bayley-Jones, Chisa Newton - which is again one of our lowest number of members we have had for a long time. We really should be working with the full complement of 12 people, so running events this year is going to be very hard for us.

We need more people to help with running our events through the Year. Village Fair, Sports Day, and the Children's Christmas Party. You do not have to attend regular meetings; just a few days before each event we will have a gathering one night to sort out where help is needed.

We always offer a warm welcome to anyone who can offer any amount of time to help, even an hour makes a difference and you will find it is so rewarding and satisfying in making our village unique happy Village to grow up or grow old in.

### **The Village Fair is on - Saturday 8th June, starting at 2:00pm**

The Summer Fair is our main event of the year. To generate the funds of which are put back into putting on the rest of events through the year for everyone's benefit in keeping our community spirit alive.

We are in desperate need of raffle prizes, auction items, and tombola prizes which are usually donated by individuals and local businesses. Please, if you can help with any of these, please do let me know. If you aren't in a position to do so, you can help by volunteering to man a stall for an hour or so on the day. It goes without saying if we don't have the volunteers we will have to lose some stalls which will affect the day and takings.

Village Fair with Set Up night before plus on the day, manning a village stall, help on Tea Cake stall, manning the Bouncy Castle, more info through coming months.

The Bric-a-Brac stall is back again this year! If you have anything in the loft or in your garage that needs a new home, then please call Ray Munn who is co-ordinating the stall on 07956 877509.

To any Stall Holders who wish to have a free pitch to sell their merchandise - for

further details about the times etc please get in touch with Pat Holdsworth on 07930 6484845 or email on [p\\_holdsworth@hotmail.co.uk](mailto:p_holdsworth@hotmail.co.uk) with your contact details.

We are also planning to organise a Sunday afternoon tea and cake play afternoon for the children and parents to join us at the Village Hall very soon.

Another date for the diary - **Music on the Green, Sunday 14<sup>th</sup> July**

Book it on your calendars for a great relaxing afternoon on Village Green! Invite family and friends over to BBQ on Village Green with live music to suit all tastes.

If you are able to help or for more information, contact Pat Holdsworth on 07930 6484845.

**OUR PROGRAMME CONTINUES ON APRIL 12<sup>th</sup>**

**On Friday April 12<sup>th</sup> we shall screen “Oppenheimer”. Doors open at 7:00 p.m. and the Programme starts at 7:30 p.m. The story of J. Robert Oppenheimer and his role in the development of the atomic bomb.**

**Oppenheimer (15) 2023 Awards: 9 Oscar nominations, 7 BAFTAs, Rotten Tomatoes Tomatometer 93% Audience Score 91%**

Cast: Cillian Murphy; Emily Blunt; Matt Damon. Director: Christopher Nolan.

Cillian Murphy plays the US scientist who, in his endlessly requoted words citing Hindu scripture, became death, the destroyer of worlds. This is Robert J. Oppenheimer, the physicist who masterminded the US Manhattan Project and created nuclear weapons, in the new epic from Christopher Nolan.

### **Vincent Lindon and Sandrine Kiberlain at their very best.**

*I am not a romance films lover. I prefer brutal, thrilled and action movies; not for the squeamish. But this one, totally different, is a masterpiece for me. A real monument of fineness, sensibility and emotion. Kiberlain and Lindon were, not so long ago, a couple in real life. That explains everything on the screen. Some sequences are outstanding.*

*When shy Lindon asks shy Kiberlain to play a disc of HER music, and when they listen to it, side by side, I felt warmth under my skin. An unforgettable moment. Pure emotion. At one hundred per cent.*

*And the sequence at Lindon's father's anniversary, when Kiberlain plays violin, her eyes closed, plunged into her music, her world, her soul. At this moment, Lindon's wife stares at her husband's face, and Kiberlain's one. And she understands. Everything. But keeps this for her.*

*I won't spoil the end of this real gem. But, believe me, all along this story, I felt my eyes wet.*

IMDB REVIEW

**On Tuesday April 23<sup>rd</sup> we shall screen “Till”. In 1955, after Emmett Till is murdered in a brutal lynching, his mother vows to expose the brutal racism behind the attack, while working to have those involved brought to justice. (IMDB)**

**Doors open at 7:15 p.m. and the Programme starts at 8:00 p.m.**

## Jordans Biodiversity Project

### *Wildlife Monitoring on Manor Farm Field North*

Do you know a skipper from a hairstreak? Or a scabious from a saxifrage? As we move into the summer months, we will start to monitor the birds, butterflies and plants on Manor Farm Field to build a baseline understanding of the existing wildlife. We're looking for some volunteers to help us to do this.

What it will involve:

*Butterfly monitoring* – we will be visiting the field once a month April to September, which will take about an hour and always in fine weather;

*Plant monitoring* – monthly from May to July which will take about 1.5 hours each time;

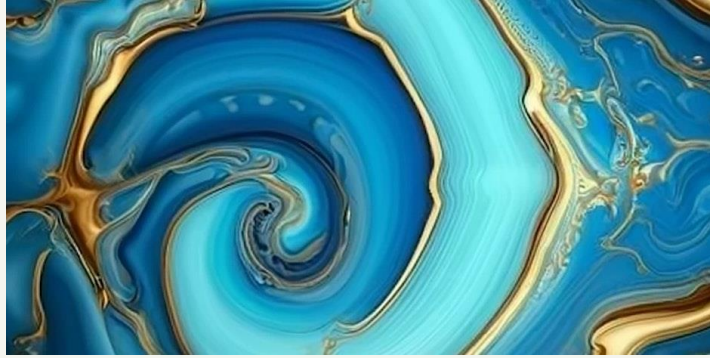

*Bird monitoring* – two outings between April and August to look and listen for birds. We will be using the scientific survey methods of the national monitoring schemes to build our own datasets as well as contribute to the national surveys.

If you have good plant, butterfly or bird ID skills or want to learn alongside us please be in touch [jordansbiodiversity@gmail.com](mailto:jordansbiodiversity@gmail.com) or call Emma on 07940 816710.

Keep in touch with the project and find out about upcoming events on **Instagram** [jordans\\_biodiversity\\_project](#). We'll also make sure to post information here.

### **About Jordans Village Performs**

Jordans Village Performs is a community-driven initiative, created by village residents for village residents. Our goal is to showcase the incredible talent within our own community while also inviting performers from outside the village to share their artistry with us. Each concert promises to be a unique and uplifting experience, filled with music, laughter, and connection.

We believe in the power of music and performance to bring people together, and we're proud to provide a platform for both emerging and established artists to shine. Whether you're a lifelong resident or just passing through, we invite you to join us for an evening of entertainment and camaraderie at Jordans Village Performs.

We can't wait to see you at our next performance!

## **Thames Valley Dowzers**

### **Learn a New Skill – DOWSING!**

An afternoon of teaching at Jordans Quaker Centre

Welders Lane, Nr. Beaconsfield, Bucks HP9 2 SN

Saturday 13th April 2024 .Starting at 2 p.m. – 5p.m. approximately

**What is dowsing?** Dowsing is a technique used to uncover information through our own natural intuitive sense. This ancient skill goes back hundreds of years when it was mostly used for finding water.

By careful questioning dowsing can be used to:

**Find water leaks; check your vitamin levels; ask questions about your health; check allergies; find missing objects; heal the energy in your home; choose your best holiday hotel and get help with other lifestyle choices.**

Come and learn how to use dowsing rods and pendulums effectively. We will start with teaching you how to obtain a “yes” and “no” answer, using different exercises to improve your technique. Rods and pendulums will be provided.

Places are limited so please check availability in the first instance through Susan Scott Powell at [chair@thamesvalleydowzers.org.uk](mailto:chair@thamesvalleydowzers.org.uk):

**The fee is £10 per person and is subject to availability, so please check first.**

For further information please phone:

Sue Scott Powell (Chair) on 01494 813 214 (mornings) and see our website for other events.

## Help keep the drains in Jordans clear!

Over the last year or so, several drains around the Estate have overflowed on an increasing number of occasions. The drains behind the houses facing Jordans Lane, starting from the corner with Seer Green Lane; the drain on the verge in Copse Lane that serves the terrace on Green West Road to the right of the Store; and the drain right behind the back of the Village Hall next to the footpath that serves the houses facing Copse Lane are the three worst affected. Several times, raw sewage has overflowed which is highly unpleasant for the residents who have been affected by it.

Each time the cause is the same - people flushing wipes down the toilet. No matter what wet wipe manufacturers or packaging say, wipes must NOT be flushed away. They must be bagged and thrown away with your general waste.

The drains in Jordans are old, made of clay, and laid many decades ago not long after the village was founded. Over time, the clay can crack due to ground movements, traffic, or roots. Around 40 or 50 years ago, plastic liners were pushed down inside them, which reduced their internal diameter and they've far more susceptible to blockages by wipes which, unlike paper do not dissolve in water when flushed.

PLEASE educate your families and stop flushing wipes away! It's really horrible for those who suffer the effect downstream. Here is some advice from Thames Water on this country wide problem, as well as various other things which should never be flushed down the toilet, or your kitchen sinks. .

### **Working together to prevent blockages**

We clear around 75,000 blockages from our sewers each year. Many of these are caused by items like wet wipes, sanitary items and cotton pads that can't break down. When they're flushed down the loo, they combine with cooking fats and oils, eventually blocking pipes. This can force raw sewage back up drains, plugholes, and toilets and into homes.

We've put together some handy tips on how to prevent blocked pipes around your home.

### **In your bathroom**

### *Bin the nasties*

Wipes, condoms, sanitary products, cotton wool, and dental floss are some of the biggest offenders in our sewers. Throw them in the bin, not the loo. The three Ps is the best rule to remember when it comes to what's flushable; pee, poo, paper. Nothing else!

### *Switch it up*

There are loads of alternatives to wet wipes and sanitary products on the market now. Why not try a few? You'll be helping the planet in more ways than one.

### *Myth: 'Flushable' products are safe to put in the loo*

Many companies market products as 'flushable'. But these wipes contain plastic, so they won't break down the same way as toilet paper does. Although they'll disappear when you flush, they won't completely leave your drains. Pop them in the bin to be safe.

## **In your kitchen**

### *Lovely leftovers*

Resist the temptation to tip old food down the kitchen sink and be sure to scrape it in the bin. If it's more of a 'liquid' food like gravy, use some kitchen roll or newspaper to soak it up, then put it in the bin.

### *Fat, oil and grease*

Cooking fat and oils will eventually turn solid and build up in your pipes. Instead of pouring them down the sink, collect them in a container like a jam jar or yoghurt pot. Leave them to cool, and once they've set, scoop them out and pop them straight in the bin.

Your local council may also have a special way to dispose of fat, oil and grease – check with them if you'd like to find out more.

### *Myth: Hot water and soap will break down oils and fats, keeping the pipe clear*

If you've blocked your drain, crossed fingers and a squirt of washing-up liquid won't clear it. That's because hot water and soap don't dissolve oils and fats. The soap may actually harden in your pipes, sticking to other items and adding to the problem.

## **What we're doing**

On average, we clear around 200 blockages each day from homes across our region. 60% of sewer flooding in homes is caused by blockages. Our ongoing mission is to raise awareness of this issue to help you prevent blockages and sewer flooding at home.

## **Working with wet wipe manufacturers**

We know from experience that the term 'flushable' isn't accurate where sewers are

concerned.

In fact, items labelled 'flushable' are made with plastic. This means they can take hundreds of years to properly break down and can still clog up your pipes.

We're working to influence manufacturers to remove the plastics in the wipes. This will not only help to protect your pipes, but also help to protect the planet, too!

## Be a good neighbour

*This is what really happens when you put the wrong things down the drain. It's not a magic portal... it all has to go somewhere.*

**Never pour oil and fat down the sink. When it cools it sets hard clogging your pipes.**

**Only flush pee, poo and toilet paper down the loo.**  
*(Your pipes weren't designed for anything else)*

**Myth-buster:** Running the hot tap and pouring washing-up liquid down the sink won't prevent fats or oils from blocking your pipes.

**Myth-buster:** Wet wipes do not break down in the loo as they are made of plastic. Even if they say 'flushable' they should never go down the toilet.

**Fat and wipes combine to create a stinking pipe-blocking fatberg.**

**What you flush could come back up through the toilet, sink or manhole, flooding your home or a neighbours.**

*(Note: The infographic also includes a white toilet icon and a circular photograph of a flooded laundry room with a washing machine and water on the floor.)*
